**Vocabulary**

**temperature** How hot or cold something is.

Thermometers measure temperature. In the United States, temperature is in degrees Fahrenheit (°F).

**thermometer** A tool used to measure temperature.

The temperature on a thermometer goes down when air gets cold. The temperature on a thermometer goes up when air gets warm.

**weather** Outside conditions, such as rainy, sunny, or cloudy.

It helps to know what the weather will be like. We can plan which clothes to wear. We know what things we can do outside.
