# Compare Data in Tables

CA Standard  
**KEY** SDAP 1.0, AF1.3

Shawn asked a 2<sup>nd</sup> grade class and a 3<sup>rd</sup> grade class to choose the breakfast they liked best.

2 <sup>nd</sup> Grade		3 <sup>rd</sup> Grade	
Oatmeal	7	Oatmeal	3
Eggs	4	Eggs	9
Pancakes	1	Pancakes	3
Cereal	6	Cereal	2

Use both tables to answer the questions.

1. How many 2<sup>nd</sup> graders like oatmeal best?

\_\_\_\_\_

2. How many 3<sup>rd</sup> graders like pancakes best?

\_\_\_\_\_

3. How many more 3<sup>rd</sup> graders than 2<sup>nd</sup> graders like eggs the best?

\_\_\_\_\_

4. How many more 2<sup>nd</sup> graders than 3<sup>rd</sup> graders like oatmeal the best?

\_\_\_\_\_

5. 3 2<sup>nd</sup> graders change their minds and decide they like pancakes the best instead of cereal. How many like cereal the best?

\_\_\_\_\_

How many like pancakes?

\_\_\_\_\_

6. 3 3<sup>rd</sup> graders change their minds and decide they like eggs more than pancakes. How many 3<sup>rd</sup> graders like eggs the best?

\_\_\_\_\_

How many like pancakes the best?
