

Different Ways To Subtract

CA Standards
KEY NS 2.2, MR 1.1

Choose a way to solve. Use mental math, a hundred chart, pencil and paper or tens and ones blocks.

1. "All Wound Up" sells wind-up toys. It has 37 wind-up dancing bears. Wu buys 10 of them to give as favors at his birthday party. How many wind-up dancing bears are left at the store?

2. A box at the store has 97 wind-up marching feet toys. The store puts 30 of the marching feet toys on display. How many are still in the box?

3. The store has 67 wind-up clicking teeth. Mr. Washington buys 48 to give as prizes at the fair. How many wind-up clicking teeth are left at the store?

4. The store has 35 wind-up jumping frogs. Marla buys 12 to give out at her birthday party. How many jumping frogs are left at the store?

5. The corner grocery wants to buy 125 wind-up drumming bears. The store has 250 wind-up drumming bears. How many more drumming bears does the store have than the grocery wants?

6. The store has 50 wind-up airplanes. Jenny buys 10 and Joey buys 15. How many wind-up airplanes are left?
