

## Wholes and Parts

**CA Standard**  
**KEY** NS 4.3, **KEY** NS 4.2

1. Toshiro has 2 apples that are each cut into 4 equal parts. He eats 6 parts. How many fourths does he eat?

---

3. Mrs. Jackson's class is having a pizza party. There are 2 pizzas each cut into 8 slices. The class ate 8 slices from the first pizza and 3 slices from the second. What fractional part of a pizza was eaten?

---

5. A baker bakes 4 loaves of bread for a party. Each loaf of bread is sliced into 10 pieces. 18 people eat 2 slices of bread. What is the fraction that shows how many loaves of bread were eaten?

---

2. Lisette drew a rectangle and divided it into fourths. She colored the whole rectangle. How many fourths were colored?

---

4. Valarie makes 2 pans of brownies for a bake sale. She cuts each pan into 12 brownies. She sells 15 brownies. What fractional part of a pan of brownies did Valarie sell?

---

6. Draw and write the fraction of the bread that was not eaten in problem 5.

---
