**Description of Investigation and Student Report**  
**Be an Investigator**

Describe the length or height of four animals, using the length or height of something in your school. For example, you might say, “The anaconda snake is as long as six people who are five feet tall laid end to end.” Use the lengths and heights of animals given in Chapter 6.

**Information****Lengths and Heights of Different Animals (Page Numbers Are from Chapter 6)**

black-browed albatross: about 80-95 centimeters long (page 146)

anaconda snake: up to 360 inches long (page 150)

elephant seal: about 21 feet long (page 151)

ringed seal: about 48 inches long (page 151)

lion: about 107 inches long (page 151)

Siberian tiger: about 3.3 meters long (page 156)

Arabian camel: 35 decimeters long (page 159)

hippopotamus: about 4 meters long (page 159)

giraffe: about 58 decimeters high (page 159)
