

Name _____ Date _____

Activity

Play a "foul-shooting" game with your group. You can use a wastebasket for the "basket." Make a "ball" from a piece of paper. Have each player try 25 times to make a "basket." Keep track of the number of successful shots for each player. Make a line plot to display the information. Find the average number of successful shots for the players in your group.

Data Sheet

Name of Player	Number of Baskets
Antonio	16
Sandra	15
Irma	15
Bill	18
