

Problem Solving: Use a Table

Answer the questions. Solve the problem.

The Math Club is going on a club trip. Members chose from four places to go. The table shows how many voted for each place. How many more club members voted for the Museum than voted for the Zoo?

Place to Visit	Votes
Aquarium	32
Museum	46
Planet Show	27
Zoo	29

_____ more

UNDERSTAND

What do I know?

What do I need to find out?

PLAN

I must use information in the table.

Should I add or subtract information?

Why?

SOLVE

What numbers will I subtract?

What is the difference?

LOOK BACK

How can I check my answer?
