

Problem-Solving Application:

Use a Bar Graph

Problem Holly and four of her friends joined the summer reading program at the local library. The bar graph shows the number of books each person read during the summer.

Who read half the number of books that Holly read?

UNDERSTAND

1. What do you know?

PLAN

2. How can you use the bar graph to solve the problem?

SOLVE

3. Which person read half the number of books as Holly read?

LOOK BACK

4. **Look Back** How can you tell if your answer is reasonable?
