

Please Draw One With Me!

(Tune: "On Top of Old Smokey")

I'll draw a triangle,
With 3 straight lines now,
With 3 corners on it,
Now I'll show you how!

I'll draw a circle,
It's quite round, you see.
It doesn't have straight sides.
Please draw one with me!

I'll draw a large square,
With 4 sides you see.
Each side is the same length.
Please draw one with me!

I'll draw a rectangle,
With 4 sides right now.
It's different than my square.
Can you tell me how?
