

Let's Pretend

Pretend you're a bird.
Are you heavy or light?
You can fly through the air
In the day or night.

You are lighter than a cat.
You are lighter than a horse.
But you're heavier than a bee.
Yes, you are, of course!

Pretend you're a bus.
You can travel far.
You can hold more people
Than a van or car.

You can hold more people
Than a bike or horse.
But you hold less people
Than a train, of course!
