

Math at Home

Dear Family,

We are starting a new unit called **Numbers Through 12**. We will count, read, and write numbers through 12. Then we will name, order, and compare numbers through 12. You can help me learn these vocabulary words, and we can do the Math Activity together.

From,

Vocabulary

number pattern A sequence of numbers arranged according to some rule.

12, 11, 10, 9, 8, 7, 6
backward by ones

2, 4, 6, 8, 10, 12
forward by twos

ordinal numbers Numbers used to indicate position or order.

first second third fourth fifth

sixth seventh eighth ninth tenth

- Math at Home in other languages

Family Math Activity

- Help your child look for numbers on grocery items and buildings.
- Write a sequence of numbers leaving out one number. Have your child find the missing number.

Literature

These books link to the math in this unit. We can look for them at the library.

- **One Wheel Wobbles**
by Carole Lexa Schaefer
(Candlewick, 2003)
- **Feast for 10**
by Cathryn Falwell
- **1, 2, 3, to the Zoo**
by Eric Carle
