1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

1. Maria puts counters on these numbers on the hundred chart: 2, 4, 6, 8, 10, 12. What number is next?

3. Susan puts counters on these numbers to make a pattern: 5, 10, 15, 20, 30, 35, 40, 45. She has missed a counter. Which number has she missed?

5. Sadie counts 5 people in each car. She counts 9 cars. How many people in all did she count?

2. Maggie puts counters on these numbers on the hundred chart: 3, 6, 9, 12, 15. What number is next?

4. Keller counts the people in the rides starting where he left off before lunch. He counts 32, 34, 36, 38, 40. What number will he count next?

6. Hogan puts counters on: 100, 96, 92, 88, 84. On which number will he put his next counter?
