

Problem Solving: Find a Pattern

TAKS Objectives 2, 6
TEKS 2.6B, 2.12C

Look for the pattern.
Then solve.

1. There are 2 sharks in each tank at the zoo. How many sharks are in 5 tanks?

Tanks	1	2	3	4	5
Sharks	2	4	6		

_____ sharks

3. Each bunch has 3 bananas. How many bananas are in 6 bunches?

Bunch	1	2	3	4	5	6
Bananas	3	6	9	12		

_____ bananas

5. There are 4 monkeys in each cage. How many monkeys are in 5 cages?

_____ monkeys

2. There are 5 llamas in each pen. There are 6 pens. How many llamas are there?

Pens	1	2	3	4	5	6
Llamas	5	10	15			

_____ llamas

4. There are 10 people in each van. How many people are in 5 vans?

Vans	1	2	3	4	5
People	10	20	30		

_____ people

6. The vendor sells 20 hot dogs each hour. How many hot dogs does he sell in 4 hours?

_____ hot dogs
