

Before, After, Between

TAKS Objectives 1, 3
TEKS 2.8

You can draw a picture or a number line to help you solve problems about numbers.

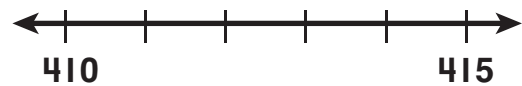

1. Jon writes missing numbers on a number line. The number between 579 and 581 is missing. What number does Jon write?

3. Anita has tickets numbered from 348 to 353. She uses one of the tickets. She has numbers 348, 349, 351, 352, and 353. Which ticket does she use?
- Ticket _____
5. Amy wants to sit between her 2 friends at the concert. In the row with seats numbered from 280 – 390, which seats could Amy not sit in?

_____ and _____

2. Mr. Ling buys three movie tickets. The tickets are sold in order from least to greatest. The first ticket sold today is 411. What are the next two ticket numbers?

_____ and _____

4. Ann read three pages in a book. The last page she read was page number 113. What are the other two pages that Ann read?
- _____ and _____
6. Pat picked a ticket from a bag. The ticket number comes after 415. It comes before 430. The digit in the tens is the same as the digit in the ones place. What ticket number did he draw?
