

# How Big is One Thousand?

**TAKS Objective 1**  
**TEKS 3.1A**

The Space Museum store sells glow-in-the-dark star stickers in the packages shown below. For Problems 1–4, tell if each person bought *more than 1,000*, *less than 1,000*, or *exactly 1,000* star stickers.

1. Tim bought 5 rolls of star stickers.

\_\_\_\_\_

2. Anita bought 10 rolls of star stickers.

\_\_\_\_\_

3. Carol bought 9 boxes of star stickers.

\_\_\_\_\_

4. Jamal bought 10 sheets of star stickers.

\_\_\_\_\_

5. Kelly wants to put 1,000 star stickers on her sticker chart. Kelly got 5 rolls of star stickers at the store. How many more stickers does she need to buy?

\_\_\_\_\_

6. **What If?** Yinka wants to put 1,000 star stickers on her bedroom ceiling. If Yinka got 5 rolls of star stickers for her birthday, how many rolls of stickers would she need to buy? How many sheets of stickers would she need to buy?
