

Make a Pictograph

TAKS Objective 5
TEKS 3.13A, 3.13B

The table below shows the number of gold medals that each of the top four countries won at the 2000 Summer Olympic Games held in Sydney, Australia.

Olympic Gold Medals Won	
Country	Number of Medals
Australia	16
China	28
Russia	32
United States	40

1. Make a pictograph of the data in the table. Use this key: Each  stands for 4 gold medals won.

Use your pictograph to answer questions 2–6.

2. For which country did you draw the most pictures? Why?

3. How many pictures did you draw for China in your pictograph? Why?

4. Why is 4 a good choice for the number of gold medals that each  stands for in the pictograph?

5. Germany won 13 gold medals in the 2000 Summer Olympics. How would you display this data on the pictograph?

6. If Russia had 10 more gold medals, and China had four less, how would you display them on the pictograph?
