

# Multiply with 6, 7, and 8

**TAKS Objectives 1, 2**  
**TEKS 3.4A, 3.6A**

Use the multiplication table at the right to solve each problem.

1. Fill in all the missing products in the multiplication table.

×	0	1	2	3	4	5	6	7	8	9	10
0				0		0	0	0	0	0	
1				3			6	7	8	9	
2				6			12	14	16	18	
3	0	3	6	9	12	15	18	21	24	27	30
4				12			24	28	32	36	
5				15			30	35	40	45	
6	0	6	12	18	24	30	36	42	48	54	60
7	0	7	14	21	28	35	42	49	56	63	70
8	0	8	16	24	32	40	48	56	64	72	80
9	0	9	18	27	36	45	54	63	72	81	90
10				30			60	70	80	90	

2. Which row has the same numbers as the column for 10?

3. In which rows do all the numbers end in a 5 or a 0?

4. Which row and column have the same number written in every square?

Represented below are parts of a multiplication table. Which row or column is shown? Fill in the missing products for each.

5.

12	16	20	24

6.

48	56	64	72
