Problem Solving: Use a Bar Graph

TAKS Objectives 1, 5
TEKS 4.1A, 4.5A, 4.13B

Problem Holly and four of her friends joined the summer reading program at the local library. The bar graph shows the number of books each person read during the summer.

Use the bar graph to answer the six questions below.

1. What do you know about Holly?

2. How do you know this?

3. What generalization can you make about how many books Holly read compared to the four other people?

4. How can you use the bar graph to solve the problem?

5. Which person read the second greatest number of books?

6. How can you tell if your answer is reasonable?
