

# Build Decimals

**TAKS Objective 1**  
**TEKS 5.1B**

## Solve.

1. Nolan bought 0.4 pounds of sliced turkey to make sandwiches. Make a quick picture to show 0.4.

---

---

3. A television reporter announced that 9 tenths of an inch of rain had fallen. Write 9 tenths of an inch in standard form.

---

5. Anthony won a race by 0.3 seconds. Draw a quick picture of 0.3 using only hundredths models. Then write a different decimal for your picture.

---

---

2. Jennifer walked 64 hundredths of a mile to school. Make a quick picture of 64 hundredths.

---

---

4. An energy drink comes in bottles that contain 75 hundredths of a liter. Write 75 hundredths of a liter in standard form.

---

6. Kim drew a quick picture with 8 lines and 7 dots. How could she draw a quick picture for the same amount using only hundredths?

---
