

# Problem Solving: Use a Table

**TAKS Objective 5**  
**TEKS 5.13B, 5.14B, 5.5A**

A	
Tiger Populations	
Tiger Subspecies	Estimated Population
Bengal	3,866
Chinese	25
Indochinese	1,506
Siberian	383
Sumatran	450

B	
Whale Populations	
Whale Species	Estimated Population
Blue	16,000
Bowhead	7,800
Fin	120,000
Gray	21,000
Humpback	10,000

Use the tables to solve.

1. Which subspecies of tiger has a population between 350 and 400?

\_\_\_\_\_

3. Which subspecies of tiger has a population of about 10 times the population of the Siberian tiger?

\_\_\_\_\_

5. Of all the subspecies listed, how many tigers are not Bengal tigers?

\_\_\_\_\_

2. Which species of whale has a population less than 10,000?

\_\_\_\_\_

4. Which species of whale has a population of about 12 times the population of the humpback whale?

\_\_\_\_\_

6. About how many more fin whales are there than all the other species listed combined?

\_\_\_\_\_
