

Measure Temperature

TAKS Objectives 4, 6
TEKS 5.11A, 5.14D

High and Low Temperatures					
Day	Monday	Tuesday	Wednesday	Thursday	Friday
High	74°F	81°F	76°F	67°F	71°F
Low	50°F	68°F	61°F	61°F	56°F

Use the table to solve each problem.

1. Is the difference in high and low temperatures greater on Tuesday or Wednesday? Explain.

3. Which two days have equal differences in high and low temperatures?

5. The high temperature for Monday was 74 degree F. What would the low temperature have been Monday if it had been 76 degree below Monday's high temperature?

2. What is the difference in high and low temperatures on Thursday?

4. What is the difference in the highest high and lowest low temperatures?

6. Rank the days of the week from the day with the least difference between high and low temperatures to the day with the most difference between high and low temperatures.
