

Challenge**Subtract the Same**

Follow the directions for each set of numbers.

1. Subtract 2.

$13 \quad \square$

$8 \quad \square$

$15 \quad \square$

2. Subtract 4.

$10 \quad \square$

$14 \quad \square$

$6 \quad \square$

3. Subtract 5.

$18 \quad \square$

$5 \quad \square$

$12 \quad \square$

4. Subtract 3.

$9 \quad \square$

$7 \quad \square$

$5 \quad \square$

Extend It Write your own directions. Then subtract.

5. Subtract _____.

$16 \quad \square$

$7 \quad \square$

$12 \quad \square$

6. Subtract _____.

$18 \quad \square$

$14 \quad \square$

$8 \quad \square$

Challenge**Subtract the Same**

Follow the directions for each set of numbers.

1. Subtract 2.

$$13 - 2 = 11$$

$$8 - 2 = 6$$

$$15 - 2 = 13$$

2. Subtract 4.

$$10 - 4 = 6$$

$$14 - 4 = 10$$

$$6 - 4 = 2$$

3. Subtract 5.

$$18 - 5 = 13$$

$$5 - 5 = 0$$

$$12 - 5 = 7$$

4. Subtract 3.

$$9 - 3 = 6$$

$$7 - 3 = 4$$

$$5 - 3 = 2$$

Extend It Write your own directions. Then subtract.

5. Subtract _____.

$$16 - \square = \square$$

$$7 - \square = \square$$

$$12 - \square = \square$$

6. Subtract _____.

$$18 - \square = \square$$

$$14 - \square = \square$$

$$8 - \square = \square$$

Answers will vary. Check children's work.
