Picnic Fun

Read each problem and solve. Write an equation.

1. There are 5 squirrels eating. Then 8 more join them. How many squirrels are eating in all?

2. There are 7 ducks swimming in the pond. Then 9 more swim over. How many ducks altogether are swimming in the pond?

3. Kyle caught 9 fish. His dad caught 7 more fish. How many fish did they catch in all?

4. There are 6 children playing baseball. Then 9 children join them. How many children altogether are playing baseball?

5. Explain Your Thinking There are 12 apples in all. How many apples are in the basket?
Picnic Fun

Read each problem and solve. Write an equation.

1. There are 5 squirrels eating. Then 8 more join them. How many squirrels are eating in all?
   
   13 squirrels; 5 + 8 = 13

2. There are 7 ducks swimming in the pond. Then 9 more swim over. How many ducks altogether are swimming in the pond?
   
   16 ducks; 7 + 9 = 16

3. Kyle caught 9 fish. His dad caught 7 more fish. How many fish did they catch in all?
   
   16 fish; 9 + 7 = 16

4. There are 6 children playing baseball. Then 9 children join them. How many children altogether are playing baseball?
   
   15 children; 6 + 9 = 15

5. Explain Your Thinking There are 12 apples in all. How many apples are in the basket?

   I see 3 apples so I can count up from 3 until I get to 12. There are 9 apples in the basket.
