

Challenge

Where Have All the Apples Gone?

LaToya has **3** apple trees. The trees each had **8** apples. Some apples have fallen off of each of the trees.

1. Ring the tree where **3** apples have fallen.

2. Draw a box around the tree where **4** apples have fallen.

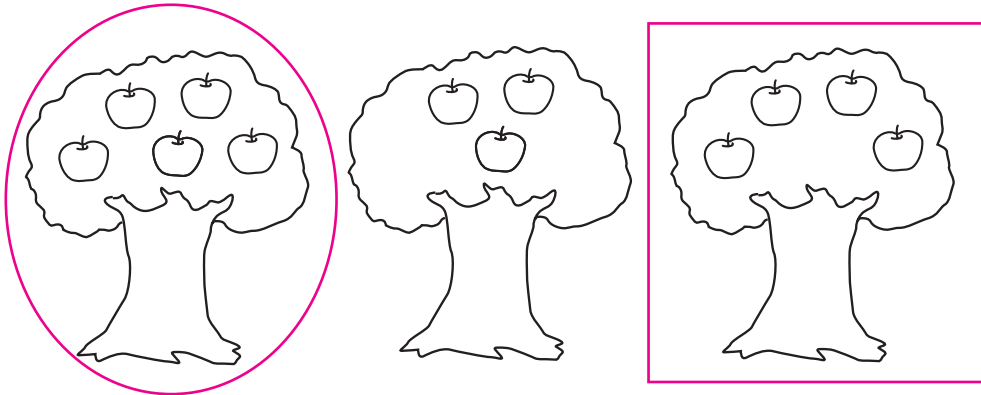

3. How many apples have fallen off the middle tree?

apples

4. **Connect It** LaToya has another tree that had **8** apples. Only **1** apple is left on this tree. How many apples have fallen off of the tree? Show your work.
