

Challenge

Pocketful of Change

You have dimes and pennies. Look at the amount on the price tag. You must use both dimes and pennies to pay for each item. Draw the dimes and pennies you would use. Use $\textcircled{10}$ and $\textcircled{1}$.

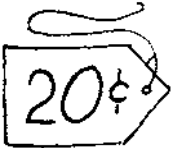

Amount	Dimes 10¢	Pennies 1¢
1. 		
2. 		
3. 		
4. 		

5. **Write About It** If the price of an item ends in a zero, is there another way you could pay instead of using both dimes and pennies? Is it easier? Why?

5. **Write About It** If the price of an item ends in a zero, is there another way you could pay instead of using both dimes and pennies?

Is it easier? Why? **Possible answer:**

Using only dimes is easier than using dimes and pennies because I just count on ten.
