# Challenge

## How Many Coins?

You need one dollar to buy a toy. Match. Draw a line to the box of coins that will make a dollar.

1.

2.

3.

4. Write About It In exercise 3, how did you

find the coins to make one dollar? I counted 10, 20, 30, 40,

50, 60. I know that it is 40 more to 100, so I matched it

to the box with 3 dimes and 2 nickels, which equals 40¢.
