1. Tamika is going to pick a ball from the bag. Is she more likely, equally likely, or less likely to pick a ○? Ring your choice.
   more likely    less likely    equally likely

2. Draw a few ○ and ● in the bag. Ask yourself whether you are more likely, equally likely, or less likely to pick a ○. Ring your choice.
   more likely    less likely    equally likely

3. Write About It  What if Tamika added 3 ● to her bag? Would she be more likely, less likely, or equally likely to pick a ○? Explain why you chose your answer.
Play the Pick Game

1. Tamika is going to pick a ball from the bag. Is she more likely, equally likely, or less likely to pick a □? Ring your choice.

   more likely  less likely  equally likely

2. Draw a few □ and □ in the bag. Ask yourself whether you are more likely, equally likely, or less likely to pick a □. Ring your choice.

   more likely  less likely  equally likely

3. Write About It  What if Tamika added 3 □ to her bag? Would she be more likely, less likely, or equally likely to pick a □? Explain why you chose your answer.

   Answers and explanations may vary. Sample answer:

   Less likely, because now there are 6 □ and 9 balls that are not □.
