Add to Find the Greatest Total

Use any method to find the totals.

Ring the total that is the greatest in each row.

1. 47 66 57 59
   + 33 + 16 + 26 + 22

2. 67 52 51 44
   + 14 + 28 + 28 + 38

3. 46 63 89 92
   + 82 + 67 + 38 + 37

4. Write About It Write the totals in exercise 1 in order from greatest to least.

What pattern do you see?
Add to Find the Greatest Total

Use any method to find the totals. Ring the total that is the greatest in each row.

1. \[
\begin{array}{cc}
47 & 66 \\
+33 & +16 \\
80 & 82 \\
\end{array}
\]

2. \[
\begin{array}{cc}
67 & 52 \\
+14 & +28 \\
81 & 80 \\
\end{array}
\]

3. \[
\begin{array}{cc}
46 & 63 \\
+82 & +67 \\
128 & 130 \\
\end{array}
\]

4. Write About It
Write the totals in exercise 1 in order from greatest to least.

What pattern do you see?

Answers will vary. Possible answer:

Totals are one less than the number before.
