

Challenge

Make a Story Problem

1. Read the problem.

Brett picked apples and
put 6 in a box.
Jan put in some, too.

2. Make a math drawing to
show what happened.

3. Ring the most reasonable
answer in the box.

There are more apples.
An apple is next in the pattern.
There are fewer apples.

4. Write your own story problem and solve.

Challenge

Make a Story Problem

1. Read the problem.

Brett picked apples and put 6 in a box.

Jan put in some, too.

2. Make a math drawing to show what happened.

3. Ring the most reasonable answer in the box.

**Drawings will vary.
Check children's work.
Possible drawing:**

○ ○ ○ ○ ○ ○ + ○ ○ ○

B

J

There are more apples.

An apple is next in the pattern.

There are fewer apples.

4. Write your own story problem and solve.

Story problems will vary. Check children's work.
