

## Challenge

### Fill in the Graphs

Oliver wants to make a circle graph to show the colors of shirts he has. Use the clues below to help Oliver fill in his graph. Label the graph with the color and how many shirts of each color Oliver owns.

#### Oliver's Shirts

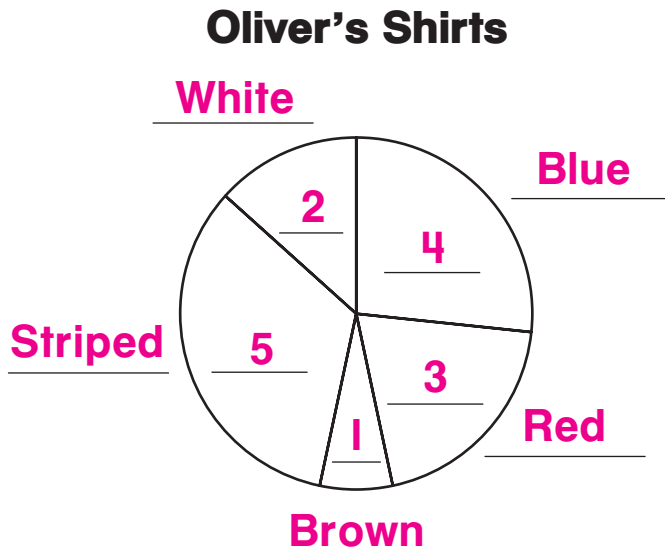

1. Oliver has 15 shirts altogether.
2. Oliver has more striped shirts than any other type of shirt.
3. Oliver only owns 1 brown shirt.
4. There are twice as many white shirts as brown shirts in Oliver's closet.
5. Oliver has 1 more red shirt than white shirts.
6. There is 1 less blue shirt than striped shirts in Oliver's closet.
