

Challenge

Match Up

Find the difference.

Match the subtraction equation with the related addition equation.

1. $429 - 150 = \boxed{}$ ●

● $125 + 349 = 474$

2. $474 - 349 = \boxed{}$ ●

● $454 + 351 = 805$

3. $681 - 472 = \boxed{}$ ●

● $279 + 150 = 429$

4. $805 - 351 = \boxed{}$ ●

● $519 + 264 = 783$

5. $783 - 264 = \boxed{}$ ●

● $134 + 826 = 960$

6. $960 - 826 = \boxed{}$ ●

● $209 + 472 = 681$

7. **Write About It** Explain how you can check subtraction by adding.

Challenge

Match Up

Find the difference.

Match the subtraction equation with the related addition equation.

1. $429 - 150 = \boxed{279}$ ● $125 + 349 = 474$

2. $474 - 349 = \boxed{125}$ ● $454 + 351 = 805$

3. $681 - 472 = \boxed{209}$ ● $279 + 150 = 429$

4. $805 - 351 = \boxed{454}$ ● $519 + 264 = 783$

5. $783 - 264 = \boxed{519}$ ● $134 + 826 = 960$

6. $960 - 826 = \boxed{134}$ ● $209 + 472 = 681$

7. **Write About It** Explain how you can check subtraction by adding.

Answers will vary. Possible answer: Add the difference and the number that was subtracted from the first number.
