

# Challenge

## Help With a Pattern

Rudy uses flips, slides, and turns to make a pattern.

Find the pattern.

- The shape and size of the circle doesn't change.  
What does change to make the pattern?

---

- What is the pattern that tells you how the shapes change?

---

- What most likely comes next in the pattern?  
Explain how you know.

---

---

---

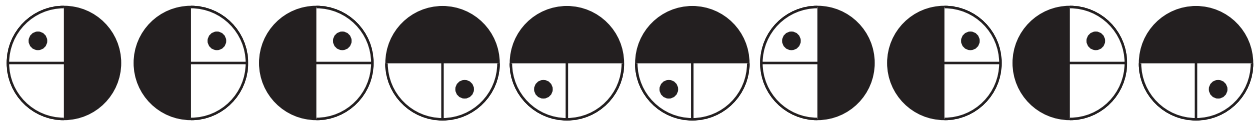

- Draw the three figures that are likely to come next in the pattern.

# Challenge

## Help With a Pattern

Rudy uses flips, slides, and turns to make a pattern.

Find the pattern.

- The shape and size of the circle doesn't change.  
What does change to make the pattern?

**the position of the shapes**

- What is the pattern that tells you how the shapes change?

**flip, slide, turn, flip, slide, turn, flip, slide, turn**

- What most likely comes next in the pattern?  
Explain how you know.

**A flip. The pattern unit is flip, slide, turn. So far it has repeated three times. If the pattern continues, a flip would be the beginning of the next pattern unit.**

- Draw the three figures that are likely to come next in the pattern.
