

Challenge

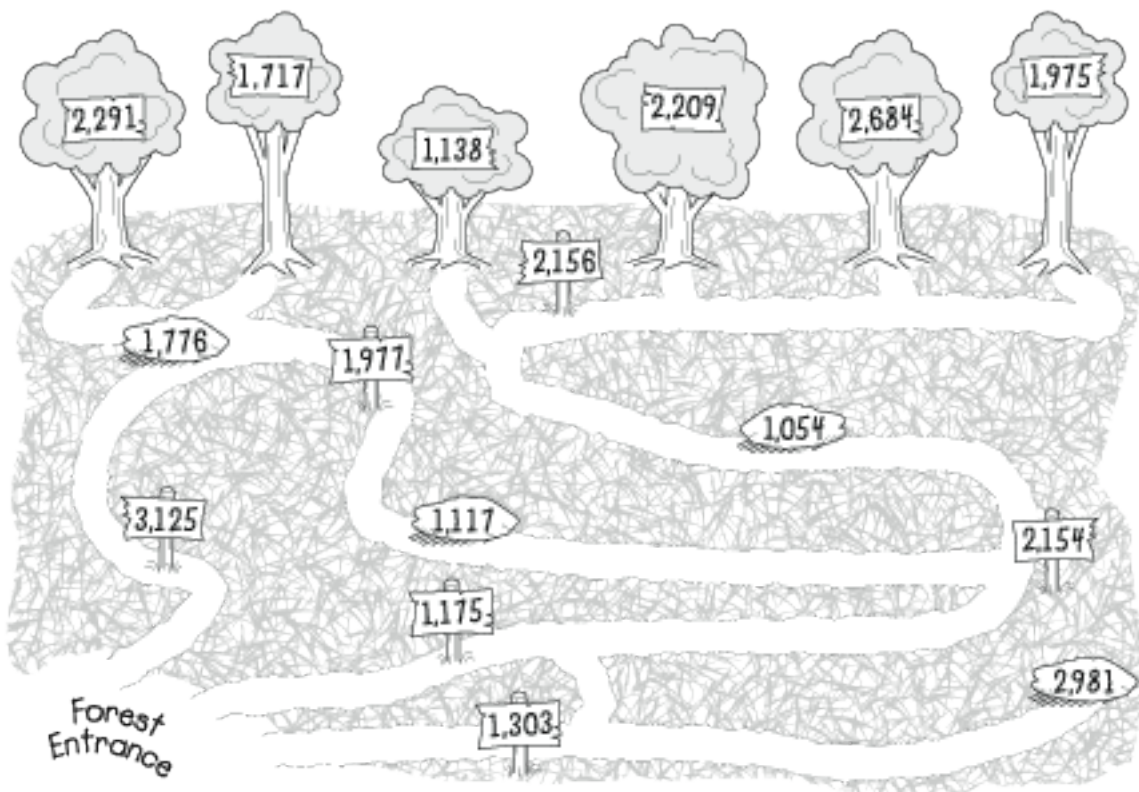

Forest Frenzy

Randy Rabbit is off to visit his friend Squeaky Squirrel. Squeaky gave Randy directions to his tree house. As you can see, the directions are a series of multiplication problems.

Write each product on the line next to the problem and follow the path to help Randy find Squeaky's tree house.

- When you enter the forest, follow the path numbered 235×5 . _____
- Continue until you come to the path labeled 718×3 . _____
- Follow this path past the rock with the number 527×2 . _____
- Turn onto the path numbered 308×7 . _____
- Squeaky's house is the tree on this path numbered 671×4 . _____

What is Squeaky's tree house number? _____

Challenge

Forest Frenzy

Randy Rabbit is off to visit his friend Squeaky Squirrel. Squeaky gave Randy directions to his tree house. As you can see, the directions are a series of multiplication problems.

Write each product on the line next to the problem and follow the path to help Randy find Squeaky's tree house.

- When you enter the forest, follow the path numbered 235×5 . 1,175
- Continue until you come to the path labeled 718×3 . 2,154
- Follow this path past the rock with the number 527×2 . 1,054
- Turn onto the path numbered 308×7 . 2,156
- Squeaky's house is the tree on this path numbered 671×4 . 2,684

What is Squeaky's tree house number? 2,684
