Problem Solving Strategy: Act It Out

Place 10 pennies on the picture of the jar. Ring two items you can buy. Remove that many cents from the jar. Write how much you spend next to the cash register. Write what you have left next to the jar.
Problem Solving Strategy: Act It Out

Place 10 pennies on the picture of the jar. Ring two items you can buy. Remove that many cents from the jar. Write how much you spend next to the cash register. Write what you have left next to the jar.

Possible answer shown.
