**Letter to Family**

Dear Family,

I would like you to do something with your child that involves comparing the lengths of objects. Have your child choose three objects of different lengths and put the objects in order from shortest to longest. He or she should then draw a picture to show the order of the objects placed from shortest to longest.

In school I will pair your child with a partner, and they will share their drawings.

Your child needs to bring this to school by \_\_\_\_\_.  
(date)

Thank you for your help.

Sincerely,
