

Name _____ Date _____

Letter to Family

Dear Family,

I would like you to help your child draw a simple shape on a piece of paper to represent your home. It might be a square or a rectangle, for example. Have your child draw something that is **inside** the shape to represent something that is **inside** your home. Have your child draw something **outside** the shape to represent something that is **outside** your home. Have them continue drawing to represent other position words, such as **over**, **between**, and **under**.

In school, I will pair your child with a partner, and he or she will share what they have drawn with each other. This activity will help in our study of the position of objects in space.

Your child needs to bring this to school by _____.
(date)

Thank you for your help.

Sincerely,
