

Name _____ Date _____

Letter to Family

Dear Family,

I would like you to have your child help you set the table for a meal that uses two pieces of silverware, such as a knife and a fork. Have your child group the silverware by twos for each place setting. Then help your child draw a picture of the silverware you used, showing the grouping by two. Finally, ask your child to write a multiplication sentence to show what is in the picture. For example, if there are 3 people eating you would write $3 \times 2 = 6$.

In class, I will have the children share their drawings. We will group the drawings by the number of people at each meal.

Your child needs to bring this to school by _____.
(date)

Thank you for your help.

Sincerely,
