**Problem**

Here is a price list from Polly's Pet Products store.

**Polly's Pet Products**

<b>Item</b>	<b>Price</b>
Grooming Brush	\$4
Doggy Shears	\$3
Shampoo	\$2
Comb	\$1

Polly's Pet Products offers special prices to animal shelters. Suppose Polly charges the local animal shelter \$30 for 10 grooming brushes and \$18 for nine doggy shears, how much money does the animal shelter save on each item?

What is the total amount the animal shelter saves?
