

Name _____ Date _____

Problem

Study the table on page 44. Without actually dividing, find the cost of one cup of lemonade. Discuss different ways to do this with members of your group. Then make a list of four ways to make that amount of money using at least one quarter and no pennies.

Cost of One Cup of Lemonade _____

This is how I figured out the cost of one cup of lemonade.

Four Ways to Use Coins to Make the Cost of One Cup of Lemonade
(with one quarter and no pennies)

Way 1: _____

Way 2: _____

Way 3: _____

Way 4: _____
