**Description of Investigation and Student Report**  
**Be an Investigator**

Teva has a stamp collection. She is going to put all of her stamps in an album. She has some rules for how she wants the stamps displayed. Since you are such a good investigator, she would like you to use her rules to figure out the number of stamps that can be arranged on a page and how they can be displayed.

**Information**

**Teva’s Stamp Album Rules for Page Layout**

- There must be at least 10 stamps on a page.
- There cannot be more than 24 stamps on a page.
- There must be more than two rows of stamps on a page.
- There must be the same number of stamps in each row.
- There must be three or more stamps in each row.
