

Name _____ Date _____

Description of Investigation and Student Report
Be an Investigator

Plant a seed to grow a plant. Use a bar graph to keep track of the height of the plant two times a week. Measure the height of the plant to the nearest half-centimeter. Write a paragraph about the changes in height over time.

Name _____ Date _____

Be an Investigator
Student Report

This is my bar graph that shows the height of my plant.

This is what happened to the height of my plant over time. _____
