Description of Investigation and Student Report
Be an Investigator

The manager of a kennel for dogs would like you to complete some of the charts that they use at the kennels to help the staff figure out how much dog food they need and what to charge customers.

Information

Dog Food Needed Each Day

Rule: cups of food = (number of dogs) x 3

| Number of Dogs | Cups of Food |
|----------------|--------------|
| 1 | |
| 2 | |
| 3 | |
| 4 | |
| 5 | |
| 6 | |
| 7 | |
| 8 | |
| 9 | |

Cost to Board Dog

Rule: cost = (number of days) x 12

| Number of Days | Cost |
|----------------|------|
| 1 | |
| 2 | |
| 3 | |
| 4 | |
| 5 | |
| 6 | |
| 7 | |
| 8 | |
| 9 | |
