

Name _____ Date _____

Problem

For each animal in the chart, make a circle graph that shows the average number of hours the animal sleeps and the average number of hours it is awake. Then make a similar circle graph for each member of your group.

Snoozing Animals

Name of Animal	Average Amount of Sleep Per Day
Gerbil	13 hours
Koala	20 hours
Opossum	19 hours
Squirrel	15 hours
Tiger	16 hours
