

Name _____ Date _____

Description of Investigation and Student Report
Be an Investigator

You want to buy two items. Item A costs \$10 and Item B costs \$50. You find two stores that sell both items, and both stores are having a sale on all the merchandise in their store. Decide which store you should buy each item at to save the most money.

Information

Pete’s Hardware Store

\$2 off all items

Sue’s Hardware Store

10% off all items
