

Name _____ Date _____

Problem

Suppose the antique store sells each of the dolls listed in the table on page 461 at 50% of the price listed. How much will the store collect, not counting sales tax? Tell two different ways to find the answer.

Antique Dolls	
Year Made	Price
1800	\$700
1880	\$1,500
1895	\$140
1912	\$200
1920	\$600
