

Name _____ Date _____

Description of Investigation and Student Report
Be an Investigator

You are going to create a survey and do the survey with a sampling of the students in your class or school to answer a question that interests you. Examples of questions you might want to ask:

- What is your favorite television program?
- How many hours do you spend playing a sport each week?
- What is your favorite pet?

Information**Steps for Doing the Survey**

1. Decide on a question that interests you.
2. Create a survey.
3. Decide how you will do a sampling of the people in your school or class.
4. Conduct the survey.
5. Show the results in a graph.
6. Draw a conclusion for your class or school.
