

# Temperature

You can use the words **hot** and **cold** to describe the temperature.

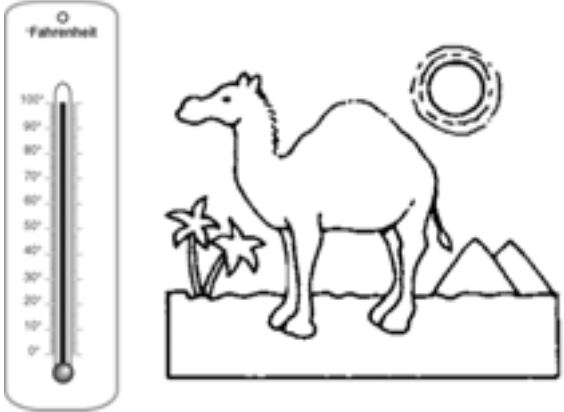

Use a thermometer to measure temperature.

<p>The temperature is <b>95</b> degrees.</p>  <p><b>95</b> degrees is hot.</p>	<p>The temperature is <b>30</b> degrees.</p>  <p><b>30</b> degrees is cold.</p>
--	--

Circle **hot** or **cold** to tell about the temperature.

1. 

25 degrees      hot      cold

2. 

100 degrees      hot      cold
