

## Inches and Feet

Solve the problems.

Remember  $12 \text{ in} = 1 \text{ ft}$ .

Judy has a ribbon that is 1 foot long. She wants to place it along the top edge of her desk. Judy's desk is 14 inches long. Does she have enough ribbon?

Draw or write to explain.

Yes

 No

1. Marta makes a red banner that is 18 inches long. José makes a blue banner that is 2 inches longer than 1 foot. Which color banner is longer? How much longer?

The \_\_\_\_\_ banner is longer. It is \_\_\_\_\_ inches longer.

2. Tyrell has 2 piles of paper that are each 4 inches high. Jess has 2 piles of paper that are each 3 inches high. When the piles are placed on top of each other, will they fit in a 1-foot space? Explain.

Yes

No
