

Problem Solving

Draw a Picture

You can draw a picture to help you solve a problem.

The karate class has 15 children in it. Each group has 5 children. How many groups are there?

UNDERSTAND

What do I know?

What do I need to find out?

PLAN

I can draw a picture to solve.

Do I multiply or divide?

SOLVE

Draw a picture.

Use the picture to help you write a division sentence.

$$\underline{\quad} \div \underline{\quad} = \underline{\quad}$$

How many groups are there?

_____ groups

**LOOK BACK**

How did I decide to multiply or to divide?
