Nets

A net is a flat pattern that can be folded into a solid figure.

Predict the solid figure the net will make.

**Step 1:** Trace or draw the net shown onto another sheet of paper. Predict the solid figure the net will make. Cut the net out. Fold the net on the dotted lines. Tape the edges together.

**Step 2:** Name the figure made by the net. Was your prediction correct?

The name of any solid starts with the name of its base. The base of this solid is a pentagon. Since the solid comes to a point at the top, the solid is a pyramid. This solid is a pentagonal pyramid.

Predict what shape each net will make.
